PLACEMENT ASSISTANCE

One of our primary goals is to provide the specialized, intensive training that will make our certified and/or licensed graduates highly employable. Our schools work closely with salon owners and employers throughout the San Diego area so that all licensees are given an opportunity to secure a position that is the right one for them. Throughout your training, job search training is incorporated in your classes, and the Career Services Department is available if you have questions or need any assistance while you are in school. During your training, you will learn about the different salons and spas that are available, interviewing procedures, how to complete a job application, resume' preparation, and other valuable points you will need to know to help you land a great job after you are licensed. As you approach graduation, a Career Services representative meets with you to remind you of the different types of assistance the department offers, including resume' preparation, referrals and graduate follow-up. Job placement assistance remains an option for you even if you have been out of school for a while. Graduates are encouraged to keep in touch with the school and provide employment updates, and are always welcome to call for any information the school can assist with. Although the school works closely with its graduates through its extensive placement assistance program, the school cannot guarantee employment.

ALUMNI ASSOCIATION

The Alumni Association supports the continued success of our licensed graduates by providing internationally acclaimed guest speakers, discounts on advanced education, discounts on professional products and equipment, development of a network of successful professionals, and providing extensive placement opportunities. TERMS OF PAYMENT

In addition to Financial Aid Assistance for qualifying students, individual financing and payment programs are available. The school offers funding options through TFC Financial Services & Sallie Mae Career Loans to assist students with tuition costs. Monthly payments vary according to down payment and amount of time (months) student agrees to finance his/her balance.

TUITION AND FEES

Tuition and fees are due and payable on the first day of class or within one week when the tuition or fee is determined and provided to the student in writing, whichever occurs first. Payments are accepted by cash, check or credit card. For those students using financial aid, payments are due when the aid is received at the school.

Students who do not make payment arrangements or fail to make their scheduled payments may be subjected to suspension or termination until their account is brought current.

If a student does not follow the payment arrangement for two (2) months, the account will be turned over to a collection agency. The student is responsible for all contracted tuition, registration, equipment, kit and overtime fees.

OVERTIME CHARGES

Students are allowed to miss 7.5% of the total hours contracted. Overtime occurs when a student has not completed their program of study by the enrollment agreement end date. If training is not completed by the prescribed time limit, the student will be required to pay tuition at the current hourly rate after the enrollment agreement end date until the time the student meets the graduation requirements. Students must meet with Financial Aid to determine a payment plan at the time that overtime charges begin to accrue.

SCHOLARSHIPS

Scholarships may be offered periodically. The only types of scholarships offered are tuition allowances for specified time periods. All students who enroll during that time period, are eligible for the scholarship.

ELIGIBILITY REQUIREMENTS

Students must meet certain eligibility requirements to receive aid under financial assistance programs. The school will assist you with the required forms. Students:

1. must usually demonstrate a financial need.
2. have a high school diploma or a General Education Development (GED) certificate or pass an Ability-to-Benefit (ATB) test.
3. must enroll in an eligible program.
4. must have a Social Security number.
5. must make satisfactory progress.
6. sign a statement of educational purpose/certification statement on refunds and default.
7. sign a statement of updated information.
8. register with the Selective Service if required.

Some students may not be eligible based on drug related offenses.

APPLICATION PROCEDURE

Students apply for Title IV Financial Assistance electronically through the school. Students will also complete a Financial Aid Application. This form is available at the school. To determine if you qualify, you will have to supply some basic information about yourself at the time of application. The school requires that you submit proof of education, age and income. If you are an eligible non-citizen, you must have an alien registration card. You must also have a Social Security number when you apply or your application will not be processed.

CRITERIA FOR SELECTION OF ELIGIBLE APPLICANTS

Students who are eligible for Title IV Financial Assistance are accepted for enrollment if they have met all of the admission requirements of the school and have established a class start date convenient for the student and the school.

DETERMINING THE AMOUNT OF YOUR FINANCIAL AID

The school's computer program will electronically calculate the information you have supplied using a formula established by Congress. The result is your *Expected Family Contributed Number (EFC)*. This number is used to determine your award level for each program. The amount you receive depends in part on your cost of education, your enrollment status, length of enrollment, and funds available at the school.

FINANCIAL AID PROGRAMS

JE Boutique College, Bay Vista College and Bellus Academy, The Academy of Beauty and Spa administer federal programs of student assistance. Included are the PELL Grant Program and Federal Family Educational Loan Program. If you are enrolled or accepted for enrollment and are a citizen or permanent resident of the United States, you are eligible to apply for assistance under these programs.

PELL GRANT: PELL Grants are available for qualifying students to assist them with their educational costs. The school's computerized system will calculate the amount of need you are eligible to receive.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG): This program is for students with exceptional financial need. Your eligibility can be determined after review of your PELL eligibility.

DIRECT LOAN PROGRAM/FEDERAL FAMILY EDUCATIONAL LOAN PROGRAM (FFELP): Applications are available at the school. Your eligibility can be determined by the Financial Aid Officer. Repayment is based on the amount borrowed and begins 6 months after completion of the course or withdrawal from the institution.

STUDENT TUITION RECOVERY FUND (STRF)

You must pay the state-imposed assessment for the Student Tuition Recovery Fund (STRF) if all of the following applies to you:

1. You are a student, who is a California resident and prepays all or part of your tuition either by cash, guaranteed student loans, or personal loans, and
2. Your total charges are not paid by any third-party payer such as an employer, government program or other payer unless you have a separate agreement to repay the third party.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if either of the following applies:

1. You are not a California resident.
2. Your total charges are paid by a third party, such as an employer, government program or other payer, and you have no separate agreement to repay the third party.

The State of California created the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic losses suffered by California residents who were students attending certain schools regulated by the Bureau for Private Postsecondary and Vocational Education. You may be eligible for STRF if you are a California resident, prepaid tuition, paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The school closed before the course of instruction was completed.
2. The school's failure to pay refunds or charges on behalf of a student to a third party for license fees or any other purpose, or to provide equipment or materials for which a charge was collected within 180 days before the closure of the school.
3. The school's failure to pay or reimburse loan proceeds under a federally guaranteed student loan program as required by law or to pay or reimburse proceeds received by the school prior to closure in excess of tuition and other cost.
4. There was a decline in the quality of the course of instruction within 30 days before the school closed or, if the decline began earlier than 30 days prior to closure, the period of decline determined by the Bureau.
5. An inability to collect on a judgment against the institution for a violation of the Act.

EDUCATIONAL REFUND POLICY

STUDENT'S RIGHT TO CANCEL

1. A student has the right to cancel his or her agreement for a course of instruction, without any penalty or obligations, through attendance at the first class session, or the seventh calendar day after enrollment, whichever is later. After the end of the cancellation period, you also have the right to stop school at any time; and you have the right to receive a pro rata refund if you have completed sixty (60) per cent or less of the program.
2. Cancellation may occur when the student provides a written notice of cancellation at the following addresses: Bellus Academy, The Academy of Beauty and Spa, 13266 Poway Road, Poway, CA 92064; Bay Vista College of Beauty, 1520 E. Plaza Boulevard, National City, CA 91950; JE Boutique College of Beauty, 1073 E. Main Street, El Cajon, CA 92021. This can be done by mail or by hand delivery.
3. The written notice of cancellation, if sent by mail, is effective when deposited in the mail properly addressed with proper postage.
4. The written notice of cancellation need not take any particular form and, however expressed, it is effective if it shows that the student no longer wishes to be bound by the Enrollment Agreement.
5. If the Enrollment Agreement is cancelled, the school will refund the student any money he/she paid, less a registration or administration fee not to exceed \$75, and less any deduction for equipment not returned in good condition, within 45 days after the notice of cancellation is received.

REMEMBER THAT YOU MUST CANCEL IN WRITING. You do not have the right to cancel by telephoning the school or by not coming to class.

WITHDRAWAL FROM THE PROGRAM

You may withdraw from the school at any time after the cancellation period (described above) and receive a pro rata refund if you have completed 60 per cent or less of the period of attendance. The refund will be less a registration fee not to exceed \$75 and less any deduction for equipment not returned in good condition (good condition does not include equipment that a seal is broken, log-on occurred, or is marked or damaged in any way), within 45 days of withdrawal.

For the purpose of determining a refund under this section, a student shall be deemed to have withdrawn from a program of instruction when any of the following occurs:

- The student notifies the institution of the student's withdrawal or as of the date of the student's withdrawal, whichever is later.
- The institution terminates the student's enrollment for failure to maintain satisfactory progress; failure to abide by the rules and regulations of the institution; absence in excess of maximum set forth by the institution; and/or failure to meet financial obligations to the school.
- The student has failed to attend class for fourteen (14) calendar days.
- Failure to return from a leave of absence.

For the purpose of determining the amount of the refund, the date of the student's withdrawal shall be deemed to be the last date of recorded attendance. For the purpose of determining when the refund must be paid, the student shall be deemed to have withdrawn at the end of fourteen (14) calendar days.

Hypothetical Refund Example:

The following table outlines the refund due based on percentage of training completed, assuming you paid the following:

<u>Total Contract</u>	<u>Less Fee for Registration</u>		<u>Less Supplies</u>	<u>Tuition Fee</u>	
\$16,000.00	\$75.00		\$2,500.00	\$13,425.00	
<u>% Completed</u>	10%	25%	50%	60%	61%
<u>Refund Due</u>	\$12,082.50	\$10,068.75	\$6,712.50	\$5,370.00	0

If any portion of the tuition was paid from the proceeds of a loan or third party, the refund shall be sent to the lender, third party or, if appropriate, to the state or federal agency that guaranteed or reinsured the loan. Any amount of the refund in excess of the unpaid balance of the loan shall be first used to repay any student financial aid programs from which the student received benefits, in proportion to the amount of benefits received, and any remaining amount shall be paid to the student.

Students who cancel their course within the cancellation period or an applicant not accepted by the school shall be entitled to a refund of all monies paid, less a registration fee, not to exceed \$75. If the course is cancelled subsequent to a student's enrollment, the School shall at its option, provide a refund of all monies paid. Any monies due are refunded within 45 days.

RETURN TO TITLE IV FUNDS

The law requires that when you withdraw during a payment period, the amount of SFA program assistance that you have earned up to that point is determined by a specific formula. If you received (or the school received on your behalf) less assistance than the amount you earned, you will be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned. For the purpose of determining the amount you owe, you shall be deemed to have withdrawn from the course when any of the following occurs: a. You notify school of your withdrawal or the actual date of withdrawal; b. the School terminates your enrollment; c. You fail to attend classes for a 14 day period; d. You fail to return from a leave of absence. In this case, the date of withdrawal shall be deemed to be the last date of recorded attendance.

The amount of assistance that you have earned is determined on a pro-rata basis. That is, if you complete 30 percent of the payment period, you can earn 30 percent of the assistance you were originally scheduled to receive. Once you have completed more than 60 percent of the payment period or period enrollment, you earn all of your assistance.

If you received excess funds that must be returned, your school must return a portion of the excess equal to the lesser of

- Your institutional charges multiplied by the unearned percentage of your funds, or
- The entire amount of excess funds.

If the amount paid is more than the amount owed, then a refund will be made within 45 days of withdrawal. If the amount owed is more than the amount paid, then you will have to make arrangements to pay it.

Order in Which to Return Funds	Hours at Start of Disbursement Period	Hours at End of Disbursement Period	Disbursed This Period	Entitled To	Refund Now Due
Unsubsidized FFEL Loan	1.0	450.0	\$2,970.00	\$0.00	\$2,970.00
Subsidized FFEL Loan	1.0	450.0	\$1,732.50	\$807.76	\$924.74
FFEL/Direct PLUS (Parent)	N/A	N/A	\$0.00	\$0.00	\$0.00
Federal Pell Grant	N/A	N/A	\$0.00	\$0.00	\$0.00
FSEOG	N/A	N/A	\$0.00	\$0.00	\$0.00
Total Return to Title IV					\$3,894.74

If your school is not required to return all of the excess funds, you must return the remaining amount. Any loan funds that you must return, you (or your parent for a PLUS LOAN) repay in accordance with the terms of the Promissory Note. That is, you make scheduled payments to the holder of the loan over a period of time.

If you are responsible for returning grant funds, you do not have to return the full amount. The law provides that you are not required to return 50% of the grant assistance that you receive that is your responsibility to repay. Any amount that you do have to return is a grant overpayment, and you must make arrangements with your school or the Department of Education to return the funds.

Students are advised that they may owe money to the school if they withdraw, as the California State refund Policy will apply for contract purposes.

SATISFACTORY PROGRESS POLICY

Satisfactory progress in attendance and academic work is a requirement for all students enrolled in this school and is the same for all students within each course. Satisfactory progress complies with all laws and regulations applicable to the school. Students receiving funds under any Federal Title IV financial aid program must maintain satisfactory progress in order to continue eligibility for such funds.

DEFINITION

At Bay Vista College, JE Boutique College, and Bellus Academy, The Academy of Beauty and Spa, minimum satisfactory progress is defined by the following criteria:

1. A grade point average of 75% and above, and
2. An attendance average of 67% or above the scheduled hours of attendance.

PROBATION

Students who fall below the above standards are placed on probation for a period of 60 days. Students can be placed on probation once per payment period, up to three (3) instances, based on course of study. Students on probation are considered to be making satisfactory progress until the next evaluation period. During the probation period, students are eligible to receive Title IV funds, however, they are monitored monthly for improvement. Financial Aid will not be disbursed if students are not maintaining Satisfactory Progress at the conclusion of the probation period, and they may be dropped. Students can re-establish Satisfactory Progress during the probation period by meeting the minimum 75% grade point average and/or 67% attendance average. Failure to re-establish Satisfactory Progress could result in termination.

SATISFACTORY ATTENDANCE PROGRESS

MAXIMUM TIME FRAME: The maximum time frame a student has to complete any course is 1½ times the course length. Course length is defined as the period of time identified on the enrollment contract. Leaves of absence as defined below are not included in this total. Should a leave of absence be granted, the student's maximum time frame for completion would be adjusted accordingly. Students re-enter at the same status as when they left, within a given time period. Note: For contract purposes, all contracted students will be allowed absences of 7.5% of the total course length. Refer to your contract for completion date. The 67% attendance average is programmed into our software system to check at midpoint of the academic year. However, we monitor satisfactory progress manually when progress reports are issued. This ensures that students have ample opportunity to improve if they fall below the standards. Failure to attend classes for 14 consecutive days will result in termination.

SATISFACTORY ACADEMIC PROGRESS

Satisfactory academic progress is determined by theory and practical grades averaged together. Theory and clinic work are both graded on the following scale:

94 – 100	= A
87 – 93	= B
80 – 86	= C
75 – 79	= D
74 and below	is failing.

Theory grades are based on test grades and homework assignments. Practical grades are based on:

- 1) The ability to accept and effectively complete all work assignments.
- 2) The ability to effectively communicate with instructors, clients and other students.
- 3) The ability to accept and perform practical tasks with emphasis on equipment.
- 4) Participation in practical hands-on classes as offered by the school & outside interests.
- 5) The ability to follow school rules.

The 75% passing grade is programmed into our software system, and we monitor it when progress reports are issued. Students falling below the minimum average are encouraged, and given the opportunity, to retake an exam for which they have received a failing grade.

APPEAL PROCESS

Students who wish to appeal the determination that they are not maintaining satisfactory progress must submit a letter to the school administration describing any mitigating circumstances the student believes deserve further consideration. Such mitigating circumstances might include family or medical emergencies or military service for which the student has elected not to request a Leave of Absence. An appeal decision will be made and the student notified accordingly. Should a student prevail upon his/her appeal and be determined as making satisfactory progress, the student will be automatically continued in the course and financial aid funds will be reinstated to eligible students. In the case of an adverse determination of the student's appeal, the student will remain on probation, and must cover tuition payments in cash. When the student re-establishes eligibility for financial aid by achieving the minimum satisfactory progress, the Financial Aid department will request the appropriate Federal funds in their behalf at the proper disbursement period.

COURSE INCOMPLETES

Course incompletes, repetitions, withdrawals and non-credit remedial courses have no effect upon the school's satisfactory progress standards.

LEAVE OF ABSENCE POLICY

Leave of Absence is restricted to Medical, Military or Family Emergency. Students requesting a leave of absence from the institution must submit a written request to the General Manager. The request should be signed and dated by the student and must contain the dates the student expects to be unable to attend school. All leave of absence requests must be approved by the General Manager.

The student's total number of all leave of absence days may not exceed the maximum 180 allowable days for any 12-month period. A student on a leave of absence will incur no additional charges by the school. Any student failing to return to the school after the expiration of a leave of absence will be withdrawn from school on that day and a withdrawal date will be determined based on the school's refund policy and all refunds will be due 45 days from that date. If a student loan recipient does not return from an approved leave of absence, the withdrawal date will be set retroactively and the student could have used up some or all of the grace period for their loan.

DROP-OUT POLICY

The student's enrollment may be terminated at the election of the School director, if the student's academic progress, behavior, absences, lateness, or dress does not conform to the requirements, rules and regulations of the School (as stated in the catalog and Guidelines for Success); in which event, the extent of the student's tuition obligation will be in accordance with the School's refund policy.
